FOR CONGREGATIONS IN THE UNITED STATES BRANCH TERRITORY

1. **Witnessing by Letter:** Letter writing can be an effective means of giving a witness. At times, it may not be possible to locate the names of individuals residing at certain addresses. When this is the case and if postal regulations and data protection laws allow, publishers may use other options, such as “occupant,” “householder,” or “resident.” Please remember that letter writing, like all other aspects of a publisher’s personal ministry, should comply with applicable data protection laws.
